## **Workflow.com® to Sponsor Chief of Staff Boot Camp Events**

Cleveland, Ohio – Workflow.com has announced that it will again sponsor luncheons at two special events for the Institute of Medical Leadership. The first will take place December 4-6 in Las Vegas, Nevada. The second is scheduled for February 5 - 7, 2009 in Orlando, Florida.

The Chief of Staff Boot Camp was designed to provide new Chiefs of Staff with the information they need to succeed in their complex role. Led by The Institute for Medical Leadership's nationally recognized faculty, the three-day Boot Camp offers 18 hours of Category One CME credit for physicians and focuses on teaching the knowledge and tools necessary to work collaboratively with peers, hospital administration, and staff members.

In addition to honing executive-level leadership and communication skills, the course provides Chiefs with a working understanding of important topics such as JCAHO accreditation, credentialing and privileging, peer review, disruptive physicians, EMTALA & HIPAA reporting requirements, and hospital finances.

### **About Workflow.com**

Workflow.com has created innovative solutions for Electronic Health Records, Practice Management, ePrescribing, messaging, and workflow. WorkflowEHR® is CCHIT Certified™ and offers a unique approach that makes it easy to transition from paper to electronic health records. WorkflowPM™, our EHR-integrated practice management solution, enables you to improve the efficiency and effectiveness of your billing.

### **About The Institute for Medical Leadership**

The Institute for Medical Leadership provides leadership development, physician coaching, and executive coaching services for medical staff leaders, Boards of Directors, and hospital administrators through its nationally recognized faculty of experts. The faculty includes physicians who have held significant leadership positions, attorneys who specialize in healthcare issues, communication skills instructors, and executive coaches who specialize in physician leadership development. The Institute developed the highly acclaimed Chief of Staff Boot Camp® series given several times a year around the United States. It also provides on-site programs that are tailored to meet each client's specific leadership development needs.
