Workflow.com® contribution nets big revenue for local non-profit

Cleveland, Ohio – To continue its efforts to support local non-profits, Workflow.com recently donated a Cleveland Browns loge package, raising funds for North Coast Health Ministry. The Cleveland-based free clinic is also a customer of Workflow.com.

"The raffle for the Browns loge provided an opportunity for many in the community to support North Coast Health Ministry through the purchase of tickets," says North Coast Health Ministry Executive Director Lee Elmore. "We are grateful to Workflow.com for the donation of the loge. Not only were we able to raise a significant amount through the raffle, we were also able to broaden awareness of the ministry to a larger group of people than just those that attended the event."

The loge package includes 12 tickets and two parking passes for the November 23rd game against Houston, Texas. The winner, Raymond Back, and his guests will be joined by Workflow.com's CEO and President, and NCHM's Executive Director and Medical Director.

Approximately 220 people were in attendance at The Celebration of Caring, which was held on August 28, 2008, at Lakewood Hospital. The evening included silent auctions, a live auction, gift balloons, dinner, dessert, and cocktails. "Despite the downturn in charitable giving locally, this year's Celebration of Caring was our best ever," says Elmore. "We raised more through this event than we ever have before, thanks to the generosity of our sponsors, donors, volunteers, and the support of the community."

Sponsors of the Celebration of Caring included Advantage Consulting Services, Ernst & Young, First Federal of Lakewood, Rae-Ann Skilled Nursing and Rehabilitation Centers, Carol and Charles A. Rini, Sr., and University Hospitals.

About Workflow.com

Workflow.com is an innovative software company that has created and supports complete solutions for ambulatory care, including electronic health records (EHR), practice management (PM), document imaging, patient scheduling, messaging, billing services, and clinical workflow.

[workflowEHR™](#) allows practices to use their own forms on a tablet PC, making patient encounters much more natural – without paper and without changing the way they are used to working. This solution enables physicians and their staff to capture clinical data with ease, streamline messaging, and eliminate paper files while automating workflow.

[workflowPM™](#) is a Practice Management solution designed for Private Practices, Clinics, Ambulatory Care Facilities, and Billing Services. Its features include scheduling, patient accounting, claims processing, reporting, HL7 interface, open architecture, and billing services.

About North Coast Health Ministry

For more than 20 years, North Coast Health Ministry (NCHM) has been providing healthcare to low-income individuals without medical insurance in western Cuyahoga and eastern Lorain counties. A faith-based free clinic, NCHM is a bridge to better health for 2,000 individuals who have no other place to go. With the support of dozens of volunteer physicians and nurses, as well as clerical volunteers, NCHM is able to provide primary health care, specialty referrals, prescription assistance, and health education to the medically underserved.
