Workflow.com® announces office in Chicago market

Cleveland, Ohio – Workflow.com today announced the recent opening of its new office in Chicago, Illinois. The purpose of the expansion is to support its growth as a company as well as leverage valuable resources in the markets where its current customers are located. All Workflow.com offices support sales, development, training, and technical support for customers and partners across North America. The company also has offices in Westlake, Ohio, and Bloomington, Indiana.

About Workflow.com

workflow.com® is an innovative software company that has created and supports complete solutions for ambulatory care, including electronic health records (EHR), practice management (PM), document imaging, patient scheduling, messaging, billing services and clinical workflow.

[workflowEHR](#)™ allows practices to use their own forms on a tablet PC, making patient encounters much more natural – without paper and without changing the way they are used to working. This solution enables physicians and their staff to capture clinical data with ease, streamline messaging, and eliminate paper files while automating workflow.

[workflowPM](#)™ is a Practice Management solution designed for Private Practices, Clinics, Ambulatory Care Facilities, and Billing Services. Its features include scheduling, patient accounting, claims processing, reporting, HL7 interface, open architecture, and billing services.
